THE LIFE & CAREER CLINIC PROGRAMS...

PROGRAMS FOR INDIVIDUALS:

LIFE FOCUSING™ The Life and Career Clinic's innovative and highly effective 3 - 4 session life and career direction program develops personal clarity, focus and direction, connects you with a sense of passion and purpose as well as providing strategy, resources and support for living successfully in today's world.

NEXT STEP COACHING™ This process is often chosen by entrepreneurs, creatives and those wanting to expand their present way of life. Focuses on self-defeating patterns and beliefs, developing strategies and resources.

RED HOT PASSION ... COLD HARD CASH!™ This innovative program is designed for those who fear they'll never have enough money to live passionately... who struggle with money no matter how much they make ... who want a healthier, happier relationship with their money! Process addresses core beliefs, boundaries, self-love, resourcefulness, vision, debt management ... and much more!

ONGOING SUPPORT:

TEAM SPIRIT™ An uplifting team mentorship program developed to support Life Focusing. Led by trained facilitators, small member groups explore the steps of transition, self-awareness and limiting beliefs in order to create positive new visions and increased self-esteem, Special interest teams are also available, focusing on creativity, writing and healing.

VISION FOCUS TEAM™ A unique network of practical resources, ideas and support to take your dreams from vision to reality. Monthly meetings provide inspiration and motivation. Specialized teams focus on Entrepreneurial Interests, Creative Development and Healing Arts. Move beyond core-beliefs to achieve your goals. Expand ideas and resources. Excellent refresher for former Transition I Core-Belief / Vision Team members.

INDIVIDUAL MENTORING To supplement or replace teams, Certified mentors are available to individually assist participants to continually develop tools which aid in leading a passion filled life. Like the teams, Mentors are an optional service.

CAREER SERVICES:

PROFESSIONAL RESUME PREPARATION You have 10 seconds to make an impression. We've got what it takes to make that 1 page sizzle! Not simply another typing service. Includes: Consultation, Complete Composition and Editing ... A real no-brainer for you - we ask all the right questions!

POWER INTERVIEW TECHNIQUES It's not necessarily the most qualified candidate that gets the job, but the one who interviews the best. Let us help you develop the personal strategy and presentation skills that will have you communicating with confidence and power in your next interview!

OUTPLACEMENT / CORPORATE SERVICES:

As the world continues its rapid evolution, it often becomes necessary to reconfigure your organization to keep pace, The L&CC provides leading edge programs to assist in successfully absorbing the shocks of transition. Custom tailored to fit any need - from morale building workshops to comprehensive outplacement packages.

LEADERSHIP / FACILITATOR TRAINING:

The Life and Career Clinic is operated and facilitated by those who, through the use of our principles, have successfully found passion and fulfillment in their lives. Many are so excited with the results, they choose to pass it on to others and we provide Certification Training and a new way of doing business for those who find this is their path.

Does It Work?

Life Focusing™ connected me to my real potential and value. The insight I received helped me restructure my business and triple my income!

Jean Noel Bassior, Publishing Consultant Los Angeles, CA

This program not only dramatically affected our careers, but helped save our marriage! In addition to our personal work changes, we've learned more about true passion, love and trust. Great for both individuals and couples in transition.

Debbie and Richard Lowman, San Pedro, CA

I was amazed at the clarity I received from Life Focusing™. This program should be required for every newly graduated MBA. It really asks the right questions to develop a successful business.

Vivian Agura, MBA, New York, NY

As someone who has been consistently disappointed in career seminars and counseling, I was thrilled to find a process that gave me the focus and inspiration I've been craving, as well as providing truly concrete direction.

Marilyn Walters, Culver City, CA

Having recently graduated from college, I was lacking a sense of direction for my life. Participating in this program provided the insight and support I needed to compete against even more experienced candidates and win a dream job I really love.

Paul Newman, Santa Monica, CA

This program gave me the courage and support to reconstruct my whole concept of life, relationships and work.

Mark Sillings, Washington, D.C.

ABOUT THE DIRECTOR: MARY LYN MILLER

Mary Lyn Miller, a career and communications consultant, has been in the career development field since 1980. A former corporate executive, she taught traditional job search and work skills until 1986, when it was discovered she had cancer. She spent the next two years recovering and found the innovative techniques she was using to save her life were highly applicable to healing the emptiness and lack of fulfillment we often feel in our work experience. Inspired by her personal journey, Mary Lyn combined these techniques with her career consulting

background and developed a breakthrough program for personal clarity and life direction called Life Focusing™. In 1988, she opened The L&CC as a place to "heal one's relationship with work and bring passion and purpose into our lives." Today, through Focusing, teaching, writing and personal appearances, she and her staff have affected the lives of thousands of men and women who have sought to embrace their dreams and be all they were designed to be.
